Date of birth: 01.06.1993

Fresh graduate, looking for my first opportunity to write code and deliver high quality software to production. Excellent team player and fast learner, skilled in problem solving, data collection and analysis.

Skills

- C, C#, JAVA, Python for Data Science (numpy, pandas, Keras).
- JavaScript, React, Express.
- Microsoft SQL Server, MongoDB.

Work experience

2020-2023 NOC Technical Support at Nayax.

In this position I had to:

- Respond to events and various technical problems in real-time.
- Provide technical issue resolution with worldwide customers via emails and calls.
- Diagnose the cause of problems in a complex environment to provide effective solutions quickly.

Education

2019-2023 Bsc in Computer and Information Science, Ruppin Academic Center.

2017-2018 A 3 Semester long course for electronic music Production at BPM College.

2007-2011 Shay Agnon High school, Netanya, Israel. Majoring Biology and Chemistry.

Military service

2012-2015 Combat medic at 402 regiment, artillery corps.

Languages

I can communicate fluently in Hebrew, and English. I speak some Russian but sadly cannot write in it.
